

New Fundraiser

We are now collecting empty inkjet cartridges!

Help raise money and divert waste from landfills by bringing in your empty inkjet cartridges for recycling.

What is an inkjet cartridge?

Inkjet cartridges are small printer cartridges usually used at home or in small offices. Inkjet cartridges should fit in the palm of your hand.

Why should I recycle my cartridge?

Cash for Cartridges will buy your empty cartridges. Not only are helping to raise much needed funds, you are recycling! Each year over 100 million printer cartridges are used in Canada. Only 5-10% of those are recycled. Stacked end to end, all of cartridges thrown away would circle the earth!

Cash for Cartridges helps everybody!

Helping to raise money and help the planet is as simple as bringing in your empty inkjet cartridges and placing it in the recycling box.
